Bottom Walker

Hook: 10-6, long shank

Thread: 6/0 black

Body: Deer hair spun and clipped to shape of dragonfly nymph. Olive seal fur is then loosely dubbed over the deer hair

Thorax: Olive seal fur

Wingcase: Peacock eye

Legs: Peacock eye, 4 strands out each side

Note: A clump of moose mane can be tied down as beard to help make the fly wheedles.

Tying Instructions:

- Spin a clump of deer hair on to hook shank at bend of hook. Then tie in a few more clumps along shank of hook, leaving enough room for thorax.
- Trim deer hair to shape of a dragonfly nymph.
- Wrap thread back to bend of hook, and dub olive seal fur on to thread.
- Wrap seal fur forward, leaving some of the deer hair underneath visible.
- Tie in peacock eye with tips extending back over body.
- Tie in 2 strands of peacock eye out each side as legs.
- Dub olive seal on to thread and wrap forward to just before eye of hook.
- Tie in 2 more strands of peacock eye out each side.
- Pull peacock eye over thorax for wingcase.
- Trim, whip finish, and head cement.

Crystal Dragon

Hook: 8-4 Mustad 9672
Thread: 6/0 Black
Body: Olive crystal chenille
Legs: Olive pheasant rump
Wingcase: Peacock eye
Thorax: High quality peacock herl
Eyes: Medium black or green plastic

Tying Instructions:

- Wrap thread forward to just before eye of hook, and secure plastic eyes to hook shank by making several figure eights back and forth over the eyes with the tying thread.
- Tie in crystal chenille at bend of hook.
- Wrap crystal chenille about 3/4 the way up the hook shank (leaving enough room for wingcase).
- Tie in several peacock eye fibers with tips extending back over body.
- Tie in several pheasant rump fibers out either side for legs. Legs should extend almost to the end of the body.
- Tie in 3 strands of good quality peacock herl and wrap forward up to the plastic eyes.
- Pull peacock eye fibers forward, over peacock herl thorax and plastic eyes, and secure in place with thread.
- Trim, whip finish, and head cement.

Deer Hair Gomphus

Hook: 10-6 nymph

Thread: 6/0 color to match body

Body: Brown or Olive deer hair, spun and clipped to shape of Gomphus Dragon

Legs: Speckled pheasant

Head: Spun deer hair, color to match body, clipped to shape

Tying Instructions:

- Tie in a clump of deer hair, about the diameter of a pencil at the bend of hook.
- Push hair back and tie in another clump right against the first clump.
- Tie in a few more clumps until you reach 3/4 the way up the hook shank.
- Clip deer hair to shape of Gomphus body. Make sure to leave enough hook gap on the bottom of the fly.
- Tie in speckled pheasant out each side, extending back as legs.
- Tie in a few more clumps of deer hair for head.
- Whip finish and head cement.
- Trim deer hair head, to shape.
